Clouds and the Earth's Radiant Energy System
CERES Publications for 2016

Adam, O., Bischoff, T., & Schneider, T. (2016). Seasonal and interannual variations of the energy flux equator and ITCZ. Part I: Zonally averaged ITCZ position. *Journal of Climate*, *29*(9), 3219–3230. http://doi.org/10.1175/JCLI-D-15-0512.1

Adam, O., Schneider, T., Brient, F., & Bischoff, T. (2016). Relation of the double-ITCZ bias to the atmospheric energy budget in climate models. *Geophysical Research Letters*, *43*(14), 7670–7677. https://doi.org/10.1002/2016GL069465

Adebiyi, A. A., & Zuidema, P. (2016). The role of the southern African easterly jet in modifying the southeast Atlantic aerosol and cloud environments. *Quarterly Journal of the Royal Meteorological Society*, *142*(697), 1574–1589. http://doi.org/10.1002/qj.2765

Ahlgrimm, M., & Forbes, R. M. (2016). Regime dependence of cloud condensate variability observed at the Atmospheric Radiation Measurement Sites. *Quarterly Journal of the Royal Meteorological Society*, *142*(697), 1605–1617. http://doi.org/10.1002/qj.2783

Ahlgrimm, M., Forbes, R. M., Morcrette, J.-J., & Neggers, R. A. J. (2016). ARM's Impact on Numerical Weather Prediction at ECMWF. *Meteorological Monographs*, *57*, 28.1-28.13. http://doi.org/10.1175/AMSMONOGRAPHS-D-15-0032.1

Baker, N. C., & Taylor, P. C. (2016). A Framework for Evaluating Climate Model Performance Metrics. *Journal of Climate*, *29*(5), 1773–1782. http://doi.org/10.1175/JCLI-D-15-0114.1

Bantges, R. J., Brindley, H. E., Chen, X. H., Huang, X. L., Harries, J. E., & Murray, J. E. (2016). On the detection of robust multi-decadal changes in the Earth's Outgoing Longwave Radiation spectrum. *Journal of Climate*, *29*(13), 4939–4947. http://doi.org/10.1175/JCLI-D-15-0713.1

Baran, A. J., Hill, P., Walters, D., Hardiman, S. C., Furtado, K., Field, P. R., & Manners, J. (2016). The Impact of Two Coupled Cirrus Microphysics-Radiation Parameterizations on the Temperature and Specific Humidity Biases in the Tropical Tropopause Layer in a Climate Model. *Journal of Climate*, *29*(14), 5299–5316. http://doi.org/10.1175/JCLI-D-15-0821.1

Barragan, R., Romano, S., Sicard, M., Burlizzi, P., Perrone, M. R., & Comeron, A. (2016). Estimation of mineral dust direct radiative forcing at the European Aerosol Research Lidar NETwork site of Lecce, Italy, during the ChArMEx/ADRIMED summer 2013 campaign: Impact of radiative transfer model spectral resolutions. *Journal of Geophysical Research: Atmospheres*, (In Press). https://doi.org/10.1002/2016JD025016

Bates, R. J. (2016). Estimating Climate Sensitivity Using Two-zone Energy Balance Models. *Earth and Space Science*, *3*(5), 207–225. http://doi.org/10.1002/2015EA000154

Bellomo, K., Clement, A. C., Murphy, L. N., Polvani, L. M., & Cane, M. A. (2016). New Observational Evidence for a Positive Cloud Feedback that Amplifies the Atlantic Multidecadal Oscillation. *Geophysical Research Letters*, (In Press). https://doi.org/10.1002/2016GL069961

Bender, F., Engström, A., & Karlsson, J. (2016). Factors controlling cloud albedo in marine subtropical stratocumulus regions in climate models and satellite observations. *Journal of Climate*, *29*(9), 3559–3587. http://doi.org/10.1175/JCLI-D-15-0095.1

Blanc, E., & Strobl, E. (2016). Assessing the impact of typhoons on rice production in the philippines. *Journal of Applied Meteorology and Climatology*, *55*(4), 993–1007. http://doi.org/10.1175/JAMC-D-15-0214.1

Blunden, J., & Arndt, D. S. (2016). State of the Climate in 2015. *Bulletin of the American Meteorological Society*, *97*(8), Si-S275. https://doi.org/10.1175/2016BAMSStateoftheClimate.1

Bodas-Salcedo, A., Hill, P. G., Furtado, K., Williams, K. D., Field, P. R., Manners, J. C., … Kato, S. (2016). Large contribution of supercooled liquid clouds to the solar radiation budget of the Southern Ocean. *Journal of Climate*, *29*(11), 4213–4228. http://doi.org/10.1175/JCLI-D-15-0564.1

Boeke, R. C., & Taylor, P. C. (2016). Evaluation of the Arctic surface radiation budget in CMIP5 models. *Journal of Geophysical Research: Atmospheres*, *121*(14), 8525–8548. https://doi.org/10.1002/2016JD025099

Bouniol, D., Roca, R., Fiolleau, T., & Poan, D. E. (2016). Macrophysical, microphysical and radiative properties of tropical Mesocale Convective Systems over their life cycle. *Journal of Climate*, *29*(9), 3353–3371. http://doi.org/10.1175/JCLI-D-15-0551.1

Brient, F., & Schneider, T. (2016). Constraints on climate sensitivity from space-based measurements of low-cloud reflection. *Journal of Climate*, *29*(16), 5821–5835. http://doi.org/10.1175/JCLI-D-15-0897.1

Brown, P. T., Li, W., Jiang, J. H., & Su, H. (2016). Unforced Surface Air Temperature Variability and Its Contrasting Relationship with the Anomalous TOA Energy Flux at Local and Global Spatial Scales. *Journal of Climate*, *29*(3), 925–940. http://doi.org/10.1175/JCLI-D-15-0384.1

Ceppi, P., McCoy, D. T., & Hartmann, D. L. (2016). Observational evidence for a negative shortwave cloud feedback in mid to high latitudes. *Geophysical Research Letters*, *43*(3), 1331–1339. http://doi.org/10.1002/2015GL067499

Cesana, G., Chepfer, H., Winker, D., Getzewich, B., Cai, X., Jourdan, O., … Reverdy, M. (2016). Using in-situ airborne measurements to evaluate three cloud phase products derived from CALIPSO. *Journal of Geophysical Research: Atmospheres*, *121*(10), 5788–5808. http://doi.org/10.1002/2015JD024334

Chambers, L. H., McKeown, M. A., McCrea, S. A., Martin, A. M., Rogerson, T. M., & Bedka, K. M. (2016). CERES S'COOL Project Update: The Evolution and Value of a Long-Running Education Project With a Foundation in NASA Earth Science Missions. *Bulletin of the American Meteorological Society*, (In Press). https://doi.org/10.1175/BAMS-D-15-00248.1

Chen, G., & Wang, W.-C. (2016). Aerosol-stratocumulus-radiation interactions over the southeast Pacific: Implications to the underlying air-sea coupling. *Journal of the Atmospheric Sciences*, *73*(7), 2759–2771. https://doi.org/10.1175/JAS-D-15-0277.1

Chen, G., Han, W., Li, Y., & Wang, D. (2016). Interannual Variability of Equatorial Eastern Indian Ocean Upwelling: Local versus Remote Forcing. *Journal of Physical Oceanography*, *46*(3), 789–807. http://doi.org/10.1175/JPO-D-15-0117.1

Chern, J.-D., Tao, W.-K., Lang, S. E., Matsui, T., Li, J.-L. F., Mohr, K. I., … Peters-Lidard, C. D. (2016). Performance of the Goddard multiscale modeling framework with Goddard ice microphysical schemes. *Journal of Advances in Modeling Earth Systems*, *8*(1), 66–95. http://doi.org/10.1002/2015MS000469

Christensen, M. W., Behrangi, A., L'Ecuyer, T., Wood, N. B., Lebsock, M. D., & Stephens, G. L. (2016). Arctic Observation and Reanalysis Integrated System: A New Data Product for Validation and Climate Study. *Bulletin of the American Meteorological Society*, *97*(6), 907–915. http://doi.org/10.1175/BAMS-D-14-00273.1

Collow, A. B. M., & Miller, M. A. (2016). The Seasonal Cycle of the Radiation Budget and Cloud Radiative Effect in the Amazon Rainforest of Brazil. *Journal of Climate*, *29*(21), 7703–7722. https://doi.org/10.1175/JCLI-D-16-0089.1

Collow, A. B., Ghate, V. P., Miller, M. A., & Trabachino, L. C. (2016). A one-year study of the diurnal cycle of meteorology, clouds and radiation in the West African Sahel region. *Quarterly Journal of the Royal Meteorological Society*, *142*(694), 16–29. http://doi.org/10.1002/qj.2623

Collow, A. M., Miller, M. A., & Trabachino, L. C. (2016). Cloudiness over the Amazon Rainforest: Meteorology and Thermodynamics. *Journal of Geophysical Research: Atmospheres*, *121*(13), 7990–8005. http://doi.org/10.1002/2016JD024848

Crétat, J., Masson, S., Berthet, S., Samson, G., Terray, P., Dudhia, J., … Hourdin, C. (2016). Control of shortwave radiation parameterization on tropical climate SST-forced simulation. *Climate Dynamics*, 1–20. http://doi.org/10.1007/s00382-015-2934-1

Daniels, J. L., Smith, G. L., Priestley, K. J., & Thomas, S. (2016). Using Lunar Observations to Validate Clouds and the Earth's Radiant Energy System Pointing Accuracy. *IEEE Transactions on Geoscience and Remote Sensing*, *54*(1), 65–73. http://doi.org/10.1109/TGRS.2015.2450182

de Szoeke, S. P., Verlinden, K. L., Yuter, S. E., & Mechem, D. B. (2016). The time scales of variability of marine low clouds. *Journal of Climate*, *29*, 6463–6481. https://doi.org/10.1175/JCLI-D-15-0460.1

De, S., Hazra, A., & Chaudhari, H. S. (2016). Does the modification in "critical relative humidity" of NCEP CFSv2 dictate Indian mean summer monsoon forecast? Evaluation through thermodynamical and dynamical aspects. *Climate Dynamics*, *46*(3–4), 1197–1222. http://doi.org/10.1007/s00382-015-2640-z

Dodson, J. B., & Taylor, P. C. (2016). Sensitivity of Amazonian TOA Flux Diurnal Cycle Composite Monthly Variability to Choice of Reanalysis. *Journal of Geophysical Research: Atmospheres*, *121*(9), 4404–4428. http://doi.org/10.1002/2015JD024567

Doelling, D. R., Haney, C. O., Scarino, B. R., Gopalan, A., & Bhatt, R. (2016). Improvements to the geostationary visible imager ray-matching calibration algorithm for CERES Edition 4. *Journal of Atmospheric and Oceanic Technology*, (In Press). https://doi.org/10.1175/JTECH-D-16-0113.1
