

Minutes for the November 2, 2011, CERES Production Oversight Board Meeting

Meeting began at 1:00 p.m. in the main conference room at 1 Enterprise.

Meeting Notes

There were no comments or corrections on the minutes from the last meeting.

Announcements

NPP launched successfully!

Open Action Items

1. Discuss the ISCCP-D2like-FlxDay/Nit file names with Dave Doelling. (2/16/11 – Jonathan)
2. Provide answers to Raja's questions she emailed recently. (3/16/11 – Jonathan)

FM5 Status

CERES power-on scheduled for Tuesday, November 8.

SCCR Discussion (SCCRs that have been submitted or updated since the last meeting)

CERESlib 859 – Updated to include ERBE-like 868..

There were no issues identified, so this SCCR will be approved.

Systems

Web cluster is down. It's expected to come back up today, except for ceres.larc.nasa.gov.

Dale asked about the ERBE-like Web files – how and when will they move from the test site to the real site? No one knew the answer.

Status of Open SCCRs

859 – November 4th delivery date.

846 – November 4th delivery date.

801 – Cathy preparing for delivery. She would like to deliver on November 4th, but she's working on other things for Norman right now.

804 – Tom will deliver the updated scripts by November 4th.

763 – Need at least two more weeks to deliver. Science data is still being validated.

809 – Making some progress; still investigating problems. Delivery will probably be next year.

814 – Received Aqua scripts from Nelson today.

867 – Incorporating standardized exit codes.

865 – On hold in CM.

870 – On hold in CM until Terra SSF processing is finished.

Additions to the Posted Reports

Toolkit

No updates to status report.

CERESlib

No updates to status report.

Perl_Lib

No updates to status report.

CERES Processing System

Iteration 1 – build data structures.

Instrument

1.4P3 – Deliver in 6 – 8 months. Mark working on this.

1.1P8 – Working on memory leak issue.

FM4 opto-isolator having a problem; getting too hot.

Still working on solar angle code.

ValR23's need to be validated.

ERBE-like

Working on Snow PGE on x86.

Investigating “jump” that Norman is seeing that neither Nitchie or Dale are seeing.

Clouds

Supporting Pat and CREW-3.

Working on Ed4.
