

## TOA Flux Working Group Meeting Agenda

1. Longwave and Window Channel ADMs for Overcast and Clear Sky Scenes  
Nitchie Manalo-Smith (AS&M)
2. Comparison of SW Reflectances and Albedos Between ERBS and CERES-TRMM  
Richard N. Green (NASA LaRC)
3. An Empirical Angular Distribution Model for the Calculation of Top-of-Atmosphere Radiative Fluxes in the Presence of Biomass Burning Aerosols  
Brian D. Killough (NASA LaRC)
4. Informing CERES Optical Depth Retrieval With Data From Other Sources  
Lin Chambers (NASA LaRC)
