

03/31/2010 CERES Data Management Team Meeting

UPCOMING EVENTS

Science Team Meeting – April 27 – 29 at the Marriott in Newport News.

REMINDERS

Each subsystem should provide updates for the backups to Tammy and Joanne.

For SA support,

1. If you are sure that you have an ODIN issue, send a help ticket to SDdesktop@asdsun.larc.nasa.gov.
2. If you have a non-ODIN issue OR are unsure that it is an ODIN issue, send a help ticket to help@asdsun.larc.nasa.gov.
3. If you don't hear back from help@asdsun.larc.nasa.gov within 1-2 days, send email to Al Settell and include the original help ticket.
4. If you have an ODIN password issue, call x47777.

Please use the DMT alias (ceres-dmt@lists.nasa.gov) for emails that pertain to the entire DMT. There is also a DMTM alias (ceres-dmtm@lists.nasa.gov) that includes those who attend the DMTM.

Please note if activity is for Edition2 or Edition3 in status reports.

Raise visibility of new files as soon as possible so changes can be made to ANGe. A few weeks notice would be nice; put it in your DMTM status report.

NOTES FROM THE PREVIOUS MEETING (Held 03/19/2010 at 10:00 a.m. in Room 1313 at the ASDC)

Announcements

Web IT plenary meeting will be held the week of March 22.

ASDC and SCF

SIT

Expect to promote TISA Averaging 650 and GGEO 653 next week.

Instrument 716 and 717 – completed running test cases from test plan; now in operational testing.

Instrument 747 awaiting new wrapper scripts.

Production

Updates to report:

Aqua Edition1-CV, Aqua Ed1-CV-NoSW, and Terra Edition1-CV complete through 3/1/10

Walt asked why Clouds didn't run for the last eight days of December 2008; Vertley will check and send email.

User Services

No updates.

Systems

Walt talked about system loading on *AMI*.

PRs

Terra Edition2G PRs still top priority.

Norman is aware that we need Terra Edition2 gains through January 2010.

CM

Dale has a problem with HDF comparison program; needs to fix that before delivery; delivery rescheduled to 3/26.

Instrument 756 – having trouble getting data to match old data.

Discussed the delivery schedules.

Tom asked if the Edition3 CRS delivery scheduled for August 6 would be a Beta; he definitely wants one.

Discussed the following SCCRs: ERBE-like 734, TISA Gridding 739, CERESlib 761, PerlLib 762, TISA Gridding 763, Instantaneous SARB 764, TISA Gridding 765, and TISA Averaging 766. No problems; all will be approved.

For ERBE-like 734 Dale agreed that if an instrument leaves cross-track mode, he will be responsible for updating the Xtrack lookup tables in the future.

SEC

No new updates.

Subsystem Status

Toolkit Issues

No new updates.

Instrument

Resolving issues with C++ delivery.

ERBE-like

Working on Aqua spectral responses.

Dale needs to figure out how to use IDL on *AMI*.

Clouds

Working on Edition3 updates for June delivery.

Sunny asked about prioritization between Edition2 and Edition3.

Convolution

No updates to status report.

Inversion

Working on SCCR 722 delivery.

SARB

No updates to status report.

TISA Averaging

No updates to status report.

TISA Gridding & GGEO

Working on upcoming delivery.

CERESlib

No updates.

DM Projects

Code Optimization

Betty Lock got Subsystem 8 to compile on *AMI-x86* and Cathy is happy with results. She is now using Scott Zentz's account on the ODU x86 machines to install and build Subsystem 8 on their machines. After we are satisfied that it is running properly there, we will meet with Duc Nguyen.

Production Processing Database/Automation

Met with SIT team to discuss PR preferences.

Ordering Tool

No updates to status report.

NPP Issues

No problems with GSIT dry run.

Meeting ended at 11:05 a.m.
